SANNAL YADAV

JAVA BACKEND DEVELOPER

Noida, India | 7523056104 | sannal.java@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software professional with 4+ years of IT industry experience and hands-on Java backend project experience using Java, Spring Boot, REST APIs, Spring Data JPA, Hibernate, PostgreSQL, and MySQL. Familiar with object-oriented programming, layered architecture, database integration, debugging, and API testing. Focused on building maintainable backend applications and strengthening Java development skills.

TECHNICAL SKILLS

Programming Languages: Java, Java 8, SQL
Core Java: OOP, Collections, Exception Handling, Multithreading
Backend Technologies: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs
Databases: PostgreSQL, MySQL
Tools: Git, Maven, IntelliJ IDEA, VS Code, Postman, Docker
Testing & API Documentation: JUnit, Swagger

EXPERIENCE

Senior Software Engineer
LTIMindtree (LTM) | January 2026 – Present

- Develop and maintain backend applications using Java and Spring Boot.
- Apply object-oriented programming principles to build modular, maintainable code.
- Develop and integrate REST APIs and troubleshoot application issues.
- Perform SQL database operations and support application data management.
- Assist with debugging, testing, and code quality improvements.

Software Engineer
LTIMindtree | September 2022 – January 2026

- Performed software engineering activities, including application troubleshooting and technical issue resolution.
- Applied programming fundamentals and object-oriented concepts in technical learning and project development.

Software Engineer Intern
Mindtree | Bengaluru, India
March 2022 – June 2022

- Contributed to the development of a travel itinerary search application.
- Developed backend REST APIs to support application functionality and data exchange.
- Integrated backend APIs with user interface modules.
- Assisted with application debugging and API testing.

Web Development Intern
Codules Technology | Greater Noida, Uttar Pradesh
September 2021 – November 2021

- Developed a vehicle insurance web application using Java, JSP, Servlets, JDBC, MySQL, Bootstrap, and Apache Tomcat.
- Implemented features for viewing insurance policies and managing policy information.
- Worked on database connectivity, application debugging, and web application testing.

PROJECTS

1. **Library Management System**
Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, MySQL, Thymeleaf, Maven

- Developed a web-based library management application using Spring Boot and Spring MVC.
- Implemented book management functionality using Controller, Service, and Repository layers.
- Integrated MySQL for data persistence using Spring Data JPA and Hibernate.
- Implemented book search by title and author, along with pagination and sorting.
- Added form validation for book-related operations.

2. **Spring Boot REST API with PostgreSQL and Docker**
Java 17, Spring Boot, Spring Data JPA, Hibernate, PostgreSQL, Docker, Maven

- Developed REST API endpoints to retrieve and create software engineer records.
- Implemented Controller, Service, and Repository layers to separate application responsibilities.
- Integrated PostgreSQL for persistent data storage using Spring Data JPA.
- Configured Docker Compose to run PostgreSQL in a containerized environment.

EDUCATION

Bachelor of Technology (B.Tech.) – Computer Science and Engineering
IIMT College of Engineering | 2018–2022

Intermediate (Class XII)
St. Mary's Inter College, Gorakhpur, Uttar Pradesh | UP Board | 2018

High School (Class X)
Maharshi Arvind Vidhya Mandir, Kushinagar, Uttar Pradesh | UP Board | 2016

CERTIFICATIONS & AWARDS

- **LTM's Super Crew Award** – October 2026
- **LTM's Super Crew Award** – April 2026
- **Team Player Badge**: Recognized for teamwork, dedication, and contributing extra time during late hours and weekends.
