Java Backend Developer with 3.5+ years of experience building and deploying scalable microservices using Java 8, Spring Boot, Hibernate, Kafka, PostgreSQL, Docker, and AWS. Experienced in designing high-performance REST and gRPC APIs, event-driven systems, and cloud-native architectures. Skilled in performance tuning, clean code, TDD, CI/CD pipelines, and implementing SOLID principles. Strong background in API Gateway, distributed systems, and Agile collaboration.

TECHNICAL SKILLS

- ➔ **Languages: Java, Java 8**, JavaScript, HTML/CSS, YAML
- ➔ **Databases:** RDBMS(MySQL, **SQL**), Database and Management Systems
- ➔ **Frameworks: Spring Boot**, **Hibernate**, JUnit, Mockito, **Microservices Architecture**, Kafka API, Spring Security
- ➔ **Technologies: REST**, gRPC
- ➔ **Cloud & DevOps:** AWS (EC2, ECR, ECS), Docker, Maven, Git, Postman, CI/CD Pipelines ➔ **Core Competencies:** Design Patterns, Object-Oriented Design & SOLID Principles, Test-Driven Development, Agile/Scrum

WORK EXPERIENCE

Senior Software Engineer Sep 2022 – Present *LTIMindtree* **-** *Java, Spring Boot, Microservices, Hibernate, REST API's, Kafka, PostgreSQL Bangalore, India* ➔ Developed and maintained **RESTful microservices** using Java 8, Spring Boot, and Spring MVC, ensuring scalable and modular backend architecture.

- ➔ Implemented **Spring Data JPA & Hibernate** for database operations and optimized queries to improve API performance and reduce latency.
- ➔ Built secure authentication and authorization flows using **JWT, OAuth2, and Spring Security** for user and service-level access control.
- ➔ Designed and integrated **Kafka producers and consumers** for event-driven communication across distributed services.
- ➔ Worked with **PostgreSQL/MySQL**, performing indexing, query tuning, and schema updates to enhance database efficiency.
- ➔ Developed **gRPC-based service-to-service communication**, improving internal call performance and reducing payload overhead.
- ➔ Containerized applications using **Docker** and supported deployments on **AWS (EC2, ECS, ECR)** following cloud-native principles.
- ➔ Implemented **CI/CD pipelines** using Git, Jenkins, Maven, and GitHub Actions for automated build, test, and deployment workflows.
- ➔ Wrote extensive **unit tests (JUnit, Mockito)** to improve code quality, increase coverage, and prevent regression

issues.
➔ Collaborated in Agile/Scrum teams, participating in sprint planning, code reviews, story refinement, and daily standups.

Software Engineer Intern March 2022 - June 2022
LTIMindtree Bangalore, India

➔ Developed a user-friendly travel itinerary search application.
➔ Built backend REST APIs and integrated them with UI modules.
➔ Contributed to code development, debugging, and API testing.

PERSONAL PROJECTS

Spring Boot REST API Portfolio | *Java, Spring Boot, PostgreSQL, Docker, Hibernate*

➔ Built a containerized **journal management REST API** with Spring Boot and PostgreSQL. ➔ Implemented **CRUD operations, DTOs, validation, and global exception handling** for stable and secure APIs.
➔ Followed **layered architecture** with service, controller, and repository layers.
➔ Used **Docker Compose** to run the application and database together in an isolated environment.
➔ Added clear API documentation and logging for better debugging and maintainability.

springboot-postgres-docker | *Spring Boot, PostgreSQL, Docker.*

➔ Developed **two simple microservices** communicating internally through lightweight RPC calls.
➔ Added **event-based communication** using a message broker for asynchronous updates. ➔ Implemented **retry handling and basic error management** to ensure message delivery. ➔ Used **Docker Compose** to run both services and the database as a unified stack.
➔ Designed the services to be modular and easy to deploy for learning and scalability.

EDUCATION

➔ **Bachelor of Technology (BTech)** in Computer Science & Engineering
IIMT College of Engineering | 2018–2022

➔ **Intermediate (12th)**
St. Mary's Inter College, UP Board, Gorakhpur, Uttar Pradesh | 2018

➔ **High School (10th)**
Maharshi Arvind Vidhya Mandir, UP Board, Kushinagar, Uttar Pradesh | 2016
